Create your first "rule"  
The censorship environment you create for your trainees is made up of a series of rules.

A rule consists of an action and a target. An action is the type of censorship that you want to apply. A target is what you want to censor. You can explore actions and targets below.

Action	Target	Sub-Target
Block	URL	

Go to the next page whenever you are ready.

◀ 1 2 3 4 5 6 ▶

Create a profile  
You can combine rules together to create more complex censorship environment for your students. You can use the plus symbol to add a rule, and the minus symbol to remove one. The resulting list of rules create a censorship profile.

Try adding and removing rules to create a profile below.

Block URL www.google.com

Go to the next page whenever you are ready.

◀ 1 2 3 4 5 6 ▶

You are now ready to use co-pilot!  
Click "Reset" to restart the co-pilot box. Once it has restarted it will be ready to use.
